

EQAS Clinical Chemistry Program

External Quality Assessment Suited for Your Laboratory

- Independent and confidential external assessment of your laboratory's performance
- A single shipment of 12 samples is provided per six-month cycle
- Human serum based samples
- Comprehensive list of analytes at normal and abnormal levels
- Electronic data submission option using eForms software
- Easy-to-read biweekly reports provide detailed individual statistical analyses and peer group comparisons

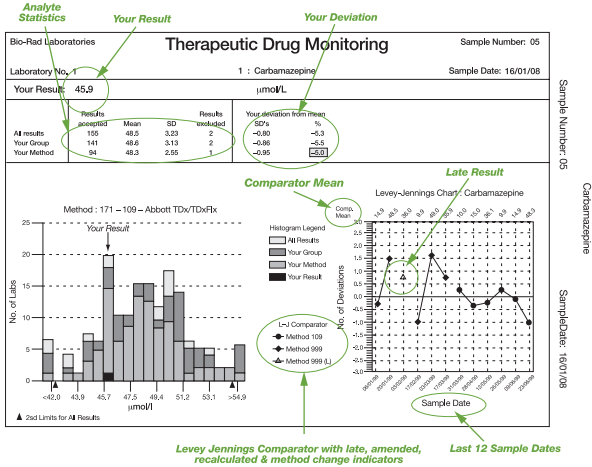

BIO-RAD

EQAS Reports

Participants receive 12 bi-weekly reports and one end-of-cycle report over each program cycle. All reports are available within three days of the statistical analysis.

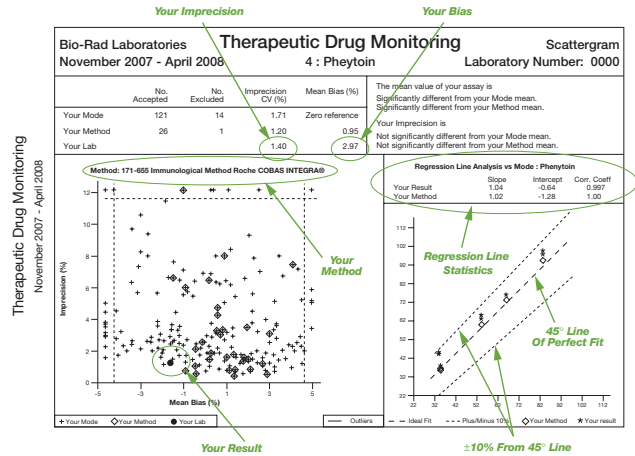

Bi-Weekly Report (Example)

Detailed individual statistical analyses and peer group comparisons are provided.

End-of-Cycle Report (Example)

An overall assessment of laboratory performance over the entire cycle in terms of bias and imprecision among participating laboratories is presented.

Additional Reports (available on request): Sub-Group Reports, Instrument/Method Summary Report

Analytes for EQAS Clinical Chemistry Program

- | | | | |
|--|---------------------------------------|-------------------------------------|----------------------------------|
| α-Hydroxybutyrate Dehydrogenase (HBDH) | Aspartate Aminotransferase (AST/SGOT) | Creatinine | Phosphate |
| γ-Glutamyl Transferase (GGT) | Bicarbonate (CO ₂) | Glucose | Potassium |
| Acid Phosphatase, Total | Bilirubin, Total | HDL Cholesterol | Prostatic Acid Phosphatase (PAP) |
| Alanine Aminotransferase (ALT/SGPT) | Calcium, Total | Iron | Protein, Total |
| Albumin | Chloride | Iron Binding Capacity, Total (TIBC) | Sodium |
| Alkaline Phosphatase (ALP) | Cholesterol, Total | Lactate Dehydrogenase (LDH) | Triglycerides |
| Aluminum | Copper | Lithium | Urea |
| Amylase, Total | Cortisol | Magnesium | Uric Acid |
| | Creatine Kinase (CK) | Osmolality | Zinc |

Refer to the package insert of currently available lots for specific analyte and stability claims

Ordering Information (Additional Programs Available)

Cat #	EQAS Programs	Quantity
BC36	EQAS Clinical Chemistry Program (17 analytes)	12 x 5 mL
BC37	EQAS Clinical Chemistry Program (35 analytes)	12 x 5 mL
CS36	EQAS Clinical Chemistry Program (17 analytes)	Report Only
CS37	EQAS Clinical Chemistry Program (35 analytes)	Report Only
QC37	EQAS Clinical Chemistry Program (specimen pack only)	12 x 5 mL
